TORNADO LIMITED EDITION

User Manual (Quick Guide)

****Congratulations on purchasing your Tornado watch.****

Tornado is about much more than telling the time. We have been crafting high-performance timepieces exclusively designed for men with a unique taste. Tornado watches feature edgy and contemporary design, as well as great functionality.

Please read these instructions carefully to ensure correct operation of your Tornado timepiece.

WATCH ADJUSTMENT

- ****Do not adjust the time or date between 9:00 PM and 3:00 AM****, as the gears are engaged and adjusting during this time may damage the movement.
- Pull the crown gently to the appropriate position and rotate clockwise to adjust the time.
- After adjustment, ensure the crown is fully pushed back into its original position to maintain water resistance.

CARE INSTRUCTIONS

- Avoid strong shocks, impacts, or dropping the watch.
- Do not expose the watch to extreme temperatures.
- Avoid contact with strong magnetic fields, including mobile phones, speakers, and electronic devices.
- Clean the watch with a soft, dry cloth.
- ****Do not attempt to open or repair the watch yourself.**** Unauthorized repairs will void the warranty.

WATER RESISTANCE

- The water resistance level is marked on the back of your watch.
- If marked ****“water resistant” (50 meters)****, the watch can withstand splashes and rain, but not diving.
- Always ensure the crown is fully pushed in before exposing the watch to water.

WARRANTY

- Your Tornado watch is covered by a ***3-year (36 months) international warranty*** from the date of purchase at an authorized Tornado sales point.
- The warranty covers defects in material or workmanship under normal use, including hands, dials, and movement.
- The product will be ****repaired or replaced free of charge**** under warranty.
- Warranty is void if damage is caused by improper or careless use, accidents, natural disasters, or if the case, band, or battery is damaged.
- Always present the warranty card along with the product for any claims.
